DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, "the can main body", "the top end opening", "the territory", "the prearranged opening area" and the "the core" lack antecedent basis.

In claim 2, "the far end of the handle" lacks antecedent basis.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Lee (5,335,808). Lee discloses, in figs. 3 and 4, a can lid comprising a collapsible protrusion 36 protruding upward from the can lid, and a handle 24.
5. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Hall (5,947,317). Hall discloses, in figs. 5 and 6, a can lid comprising a collapsible protrusion 10 protruding upward from the can lid, and a handle 11.

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Lee or Hall in view of Webb (GB 2320008). Webb teaches typography printing on a can lid and an open tab. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide typography printing on the collapsing protrusion of the can lid of Lee or Hall, in view teaching of Webb, in order to provide instructions or advertising for the can lid.
